## Windows Servicing

Jeffrey Pierce - 2018-05-22 - Comments (0) - Windows and PC Computers

1. Open Software Center from your Start Menu, or by typing 'software center":

2. Navigate to the 'Updates' panel.

Brown Application C	atalog				
Applications	<b>All</b> Re	equired		Search	م
🕃 Updates	Sort by:	Application name: A to Z	•		Install All
🕒 Operating Systems	≊د	Name		Publisher	Status
Installation status	Mew 🛃	Feature update to	Windows 10 (business editions), version 1803, en-us	Microsoft	Scheduled to install after
G Device compliance					
Options					

3. Choose the 'Feature update to Windows 10 (business editions), version 1709, en-us' and click 'install'

		Restart required: Might be required Article ID: 3012973			
		Additional information			

4. The following screen will appear, select "install":

5. Servicing will begin. It can take several hours and will restart your computer several times.

6. You can always check on the status of servicing by going back to Software Center.

7. System Tray icons to watch for:

System Tray Icon

When you click on the System Tray Icon:

Open Restart Window	 C
Restart Now
