Zoom Room Overview and How To Request One?

Gena Burke - 2019-01-30 - 0 Comments - in Zoom Web Conferencing

What is a Zoom Room?

A Zoom room is space where the Zoom application is integrated with an installed AV system.

Why would you want one?

- Room preconfigured to use Zoom
- Launch a meeting with one touch
- Easy wireless screen sharing which can be done in a Zoom meeting or alone.
- Ability to connect with users who are using Zoom software on laptop and mobile devices
- Can connect with H.323 systems

What spaces are ideal to make into a Zoom Room?

- Meeting/conference rooms
- Classrooms
- Spaces where Zoom is used often

What kind of equipment is needed for a Zoom Room?

- A Mac Mini computer that runs the Zoom Rooms software
- iPad that runs the Zoom Rooms app.
- TV display/projector & screen
- Microphone
- Speakers
- Camera
- Specific recommendations can be found here: https://zoom.us/zoomrooms/hardware
