

Zoom Whiteboard

Gena Burke - 2022-08-10 - Comments (0) - Zoom Features

Zoom provides a built-in whiteboard for digital writing and drawing. This tool is helpful when you want to create a drawing or figure to explain a concept or brainstorm with the class to create a list or graphic organizer such as a pro/con list or flow chart. Students can also create their own figures by using the whiteboard in breakout rooms. To access the Zoom whiteboard,

1. Press green share button at center bottom of Zoom window
2. Choose "Whiteboard" from options.
3. Press "Share" at the bottom right of the window.

For more details, [Zoom provides these instructions to help you get started](#).
